BTQ at Risbo

Basic Teaching Qualification for teachers in higher education

Professional teaching practice	Educational Design	Assessment (BEQ)* *This module can also be taken separately.	Teaching	Student Guidance
Discover your unique strength as a teacher. Formulate your own educational vision , define a personal learning goal , and make inclusion a central part of your teaching practice.	Learn to formulate powerful learning objectives and align your assessments and learning activities accordingly. Discover how constructive alignment and smart design choices – from formative to summative, online or offline – can help you create effective education.	Explore the full assessment cycle : from vision and assessment planning to analysis and evaluation. Design valid assessments, grade transparently, and develop an approach to assessment that truly supports learning.	Work with smart strategies such as 360-degree observation , active learning methods, and targeted feedback. Learn how to build on prior knowledge and respond to group dynamics to engage every student.	Develop your role as a mentor and learn to guide through coaching with attentiveness and trust. Use transparent communication and learn to deal with resistance to foster student growth and ownership .
	Evidence: Assignment: educational course design	Evidence: BEQ-portfolio	Evidence: 360-degree lesson observation
